

Jim Allen

Director

Jim Allen has provided Project Management services for a wide range of private and public clients and has a reputation of consistently and successfully delivering his clients' project objectives.

Jim has a background in heavy construction, as a Project Manager and Construction Manager, for over

25 years, prior to establishing Jim Allen & Associates Pty Ltd in 1993. Jim has considerable experience in all phases of projects from feasibility, design and documentation, through construction to commissioning, handover and occupancy. Projects undertaken have covered all sectors including Commercial, Retail, Industrial, Institutional, Health, Residential and Infrastructure and have varied in value from \$1 million to \$100million.

Throughout his career, Jim has placed emphasis on achieving results through team work, co-operation and collaboration. By employing sound value engineering techniques, he has also been able to achieve cost-effective outcomes without compromising functionality or aesthetics. Jim is regularly called upon by a variety of clients to facilitate Value Engineering Workshops with Builders, public and

private sector clients, consultants etc. Jim's recent projects include The Adelaide Club Refurbishment, Southern Cross, Mt Barker Aged Care Facility, Carmelite Retirement & Aged Care Facility, and 30 Pirie St Refurbishment.

Having sold his business in 2006 and after 6 years with Coffey International, Jim re-established Jim Allen & Associates Pty Ltd (JAA) in 2012. Since re-establishing JAA, Jim has again grown the business, based on a market need for a reliable, high quality service and extensive knowledge of construction and project management practices.
